

Roadrunner

NMFTA Electronic Bill of Lading (BOL) API Developer's Guide Documentation Date: 6/11/2024

eBOL API Overview

NMFTA introduced an eBOL standard that Roadrunner has taken part in. Our implementation is based on version 1.1. Please see [NMFTA's website](#) for more information about the request and response.

The Test API can be accessed at <https://webservices-test.rrts.com/bol/api/StandardBOLRequest>.

The Production API can be accessed at <https://webservices.rrts.com/bol/api/StandardBOLRequest>.

Please note that https is required. If http is used, error code “403 - 403.4 Forbidden: SSL required” will be returned.

Login information should be the same username/password used to login to the RRTS website. If you do not currently have this information, you can register at <https://freight.rrts.com/Pages/Register.aspx>

Authentication

Authentication for the API is performed using Basic Authentication in the request headers. Authentication is required to submit a BOL.

If you don't have login with us, please register here: <https://freight.rrts.com/Pages/Register.aspx>
